***Claim Objections***

1. Claims 4-12 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim 12 depends from a multiple dependent claims 4-11. See MPEP § 608.01(n). Accordingly, the claims 4-12 have not been further treated on the merits.
2. Claims 1-3 are objected to because of the following informalities: the phrase "one surface of it" needs to be changed to --one surface of the white film--. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Ishii et al (US 5,710,856). Ishii discloses a light reflective sheet comprising a porous resin sheet and a protective layer laminated on at least one surface of the porous resin sheet (abstract). The protective layer contains a light stabilizer component such as benzophenone (column 14, lines 45-48, column 8, line 61). The protective layer is formed from a copolymer of methacrylic resin (column 10, line 65 et seq.). It is the examiner's position that Ishii anticipates the claimed subject matter.
